CONNECTIONS

Whether you joined us for dinner at Cattle Ranch, attended the Mardi Gras parade, shopped a Block Party, or joined us at our Craft & Vendor Market, you can see it. There is something different in the air. Is it our updated look, perhaps our new offices, or maybe all the fresh faces you have been seeing at our meetings & events lately? Ask any member of our Board of Directors and they will tell you...we think, the difference is you!

The way our members have showed up already in 2022 is just astounding. We welcomed 27 women to our very first Member ALL CALL in January, 30 women to our Sunday Funday at Airport Lanes, 40 women to our Valentines Women's Leadership Lunch and our volunteers have donated over 200 volunteer hours to local charities and events. If this is any indication of the year ahead, ladies we are in for one amazing year!

So, I invite you...if you haven't joined us yet or maybe it's been a while, come check us out. The Member ALL CALL is a great way to learn how we started, where we are, where we are going and how you can plug in to this incredible group of local women: supporting local business and serving our community, all while enjoying each other's company. Stop by one of our many events and say "hi" ...we look forward to welcoming in this new season, with YOU!

Kim Colegrove, President

PS... You will NOT want to miss our first annual Women's Expo, **IGNITE 2022** on **May 14!!** This is shaping up to be an event like none other. See the CONNECTIONS back cover for more information!

Meet Our Non-Profit Partner:

Our Mission Is Simple:

Our children's abilities are what sets them apart from their typical peers. However, having a disability does not mean our children cannot be viable members of society. With proper training and public understanding, they can participate in many positions in the workforce, social events, and public speaking. In living their lives, they educate others daily.

Our philosophy is straight forward:

- Enhance the quality of life for all special needs individuals in our community.
- Educate community on the unique abilities our special needs children possess.
- Provide social activities for our special needs children along with all children in our community to promote understanding and circumnavigate bullying in our local schools.

Special Needs Advocacy Program, Inc. was designed to provide support and services to young adults with developmental disabilities in late 2010. Our focus initially was to enhance the lives of young people aging out of the school system, giving them a purpose. Ironically, over the past ten years, our program has changed significantly to what we are today because of the community's varying needs. Today we offer support, advocacy, and one on one counseling for at-risk youth whether they've been diagnosed with a disability or not. With all the crazy in the world today, we are prepared to transform to the needs of our Special Needs Community for years to come. If you or someone you know needs support with an individual with a disability or an at-risk teen needing counseling, please reach out to us.

CONNECTIONS

Why does a Lady need Ladies?

There is a universal rule about humans in general. Whether introverted or extraverted, we are designed to thrive in communities. We are social by nature. We connect through commonalities & learn from differences.

Activities outside of our normal behaviors & demands are restorative for us. Men and women are designed to complement each other but women can often relate to other women on deeper levels naturally.

When we come together at our women only events, we unplug. It is one of the only times that we are not needed. The brain can stop and be in the moment. At that hour lunch, dinner, or happy hour, we are not mothering, wife-ing, working, planning, cooking, or to-do-ing. The extroverts are all stretching and exercising their unused social muscles. The introverts are just sitting back enjoying the view and listening to stories. The women who need to be doing something are helping with name tags, posting, pictures, etc. The huggers hug, the non-huggers wave or fist bump. All the ladies laugh and eat. Somewhere in the mix of conversation, I see women supporting each other. Mothers with similar stories help mothers feel hopeful and seen. Workaholics laugh over their common need for these down moments & the struggle that comes from putting down the work. Ladies caring for aging parents enjoy the rare moment together. Women dealing with pain get to take a life moment despite the pain. The entire room enjoys the reminder that there is more to us than our current demand. Ideas are often born, need is often identified, solutions and resources are often shared. Connections are made. The break from our daily reality becomes a game changer!

There exist so many descriptions intended to help us understand the nature of a woman. In some writings, I remember being referred to as a multiplier.

Give a woman a house key, she will create a home. Give a woman affection, she will create a family. Share your goals & dreams with a woman, she will create the space to achieve them. Another piece I read talked about the amazing benefits of having a strong, supportive female in your life. It's clear that while our purposes may be very different, they are needed. Women need moments with other women because we can feel energized from the time and are able to do great things together. Whatever style of lady you are, there is room for you at our table!
